WHAT IS THE DIFFERENCE BETWEEN THE STAGE AND SPRITES?

In this activity, you will create a project that experiments with backdrops, like a story with multiple scenes or a slideshow. ----->

START HERE

- ☐ Choose from the library, paint, or upload multiple backdrops into your project.
- ☐ Experiment with blocks from the Looks and Events categories to initiate switching backdrops. ----->
- ☐ Add scripts to the stage and sprites to coordinate what happens when the backdrop changes in your project!
